

ASPiH Simulation Research Special Interest Group

Terms of Reference

Group Purpose:

A multidisciplinary group:

Link in and support the wider aims of the ASPiH community through high quality research

To share and disseminate best practice on simulation-based education (SBE) in healthcare.

To produce a repository of the SBE literature and evidence, for the use of all ASPiH members.

To develop a forum for like-minded individuals to pave the way for robust research methodology in SBE.

To promote collaboration, sharing of ideas and present opportunities for multicentre studies.

To foster horizon scanning for translational research in SBE.

Chair- Dr Rhoda MacKenzie

Membership- open to all ASPiH members

Meetings- At ASPiH's annual conference and other ASPiH events throughout the year, opportunity will be given for formal meetings to share ideas within the meeting programme allowing potential new members to register interest and become involved.

Accountability and Reporting- the chair will report directly to the ASPiH Executive and Research Committees and Annual Conference Local Organising Committee.

Review of terms of reference to be reviewed annually.

Rhoda MacKenzie January 2016
