

Introduction to Simulation 2 Day Course

A comprehensive programme created specifically for those with a role in clinical education and training who wish to enhance their teaching skills in simulation-based education. This programme provides an interactive mix of theory and practical application of simulation, informed by educational research and best practice.

Essential Debriefing Skills for Simulation 2 Day Course

This programme introduces the concepts of structured debriefing, using the diamond debrief model, to facilitate deep reflection, exploration of human factors skills and transfer of learning from simulated experiences to the work place. Participants will actively debrief simulation experiences and abstract exercises.

Introduction to Human Factors in Healthcare 1 Day Course

This course introduces the concepts of Human Factors science. It explores error definitions, Safety 1 and the emerging science of a Safety 2, applied resilience, and introduces the Circle of Care.

Dates

Introduction to Simulation

- 14th & 28th January
- 3rd & 17th March
- 12th & 26th May
- 7th & 28th July
- 23rd & 29th September
- 17th & 24th November

Essential Debriefing Skills for Simulation

- 15th & 16th January
- 12th & 13th February
- 18th & 19th March
- 16th & 17th April
- 20th & 21st May
- 3rd & 4th June
- 2nd & 3rd July
- 21st & 22nd October
- 5th & 6th November
- 18th & 19th November

Introduction to Human Factors in Healthcare

- 15th April
- 12th June
- 19th August
- 7th October
- 2nd December
